

**Biology Scholarship Application Form
Millersville University**

Write a brief essay describing your interest in plant biology. Please include:

- (1) what sparked your interest and how it has changed over time;
- (2) what you envision your involvement in the biological sciences to be in five years;
- (3) a description of your extracurricular activities relating to biology (such as participation in biology clubs, field trips, science fair projects, etc.)
- (4) any other information we may find useful in evaluating your application.
