No textbook is required for this course. Prerequisite: CHEM 219 (10 (le)-1 ()7 ((R

practices at different days of that week.

COURSE CONTENT & REQUIREMENTS

- 1) **Attendance:** This is a seminar course in which you will attend seminars and evaluate your peers. You must attend all the seminars and submit the evaluations. On seminar days, I will be checking for attendance as you will be awarded an attendance grade. If you do not attend seminars on those days, you will receive a grade of zero for that day.
- 2) **MFTs and Exit Interview:** Additionally, you will be given problem sets in selected areas of chemistry and perform a major field test (MFT) on a designated day (closer to the end of the semester). The review topics and problem sets include

- 3) **Your Senior Seminar:** I will ask that you meet with me two weeks before your seminar presentation to look over your slides and have a discussion about your presentation. You will practice your seminar at least once before it is presented, where I will be in attendance and I will time your presentation and give you
