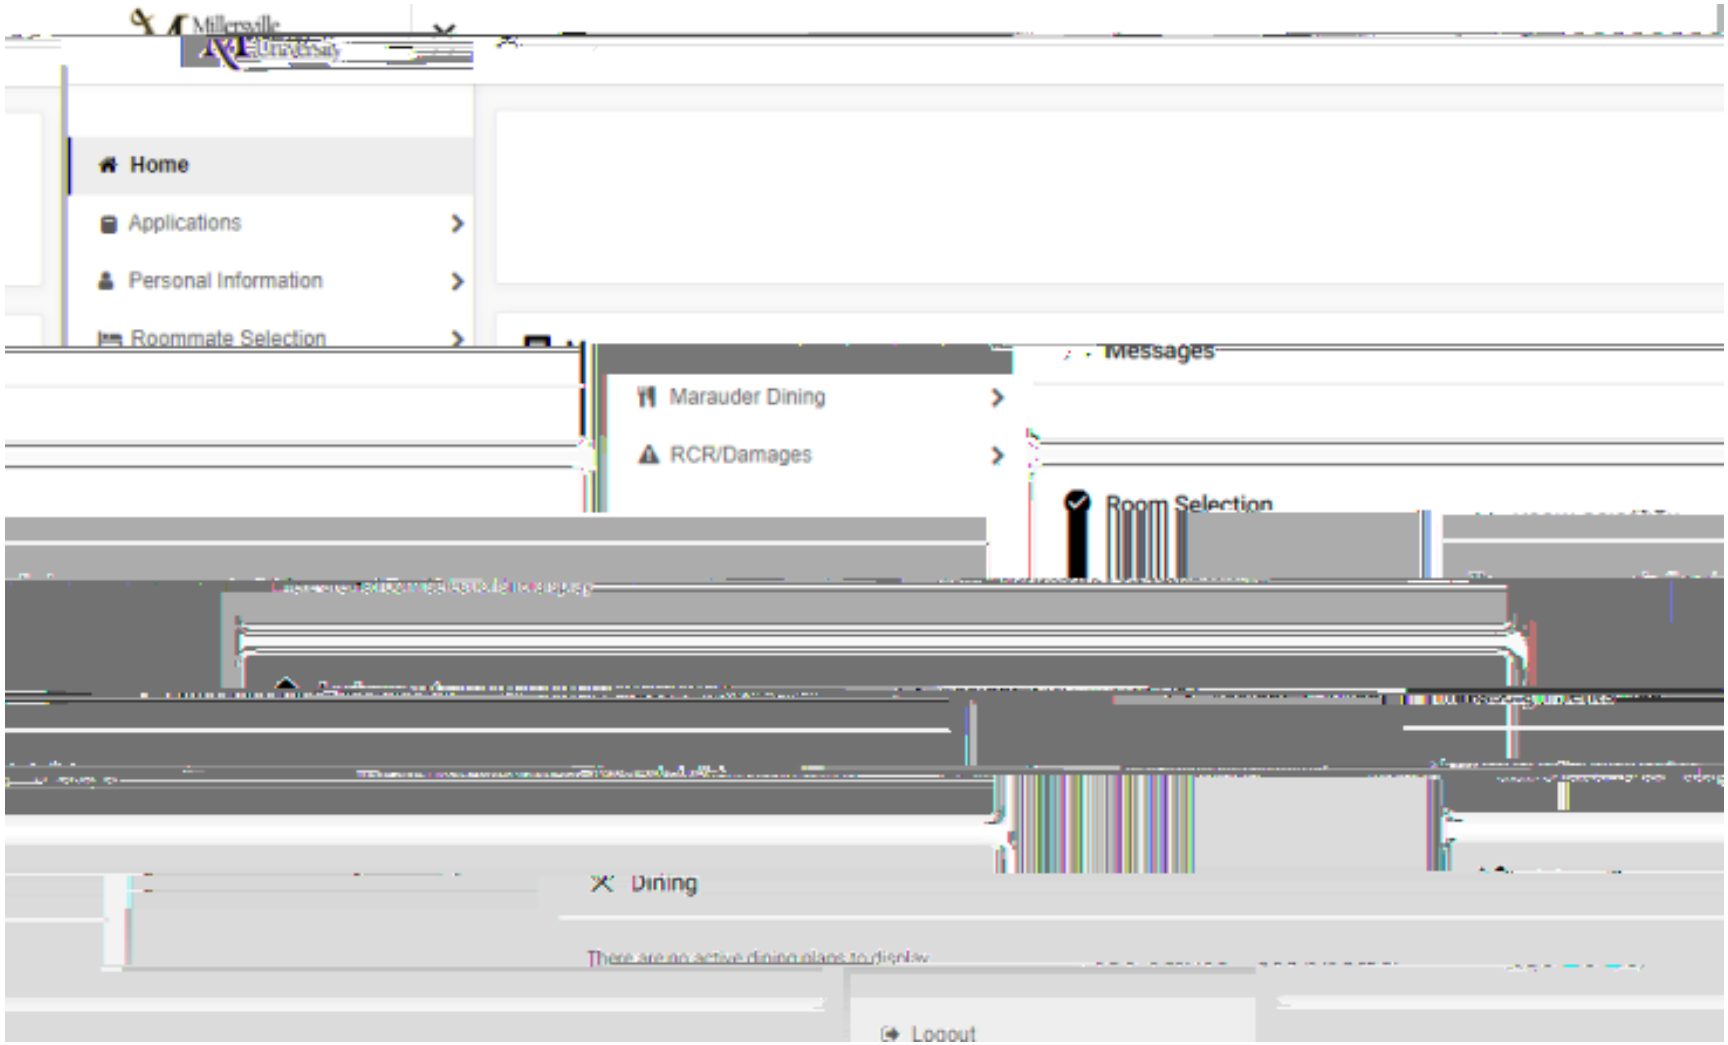
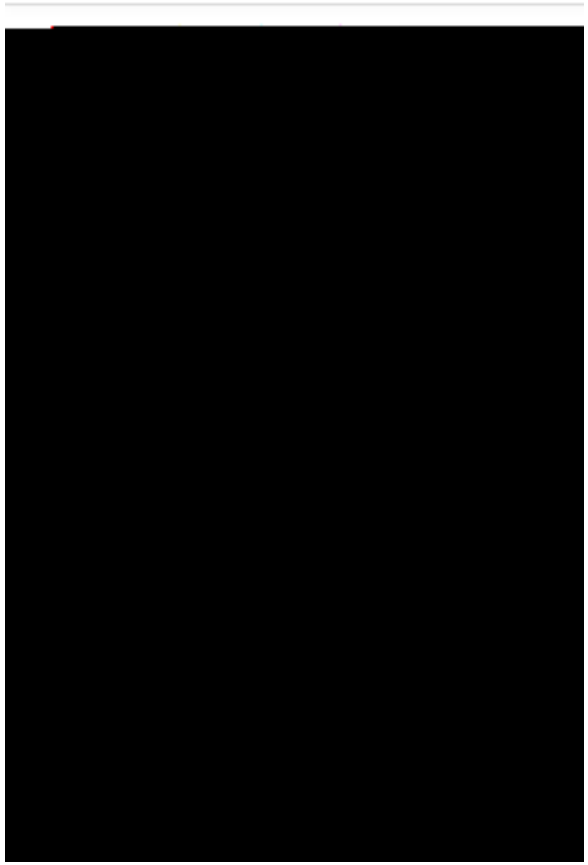
Roommate Selection Instructions

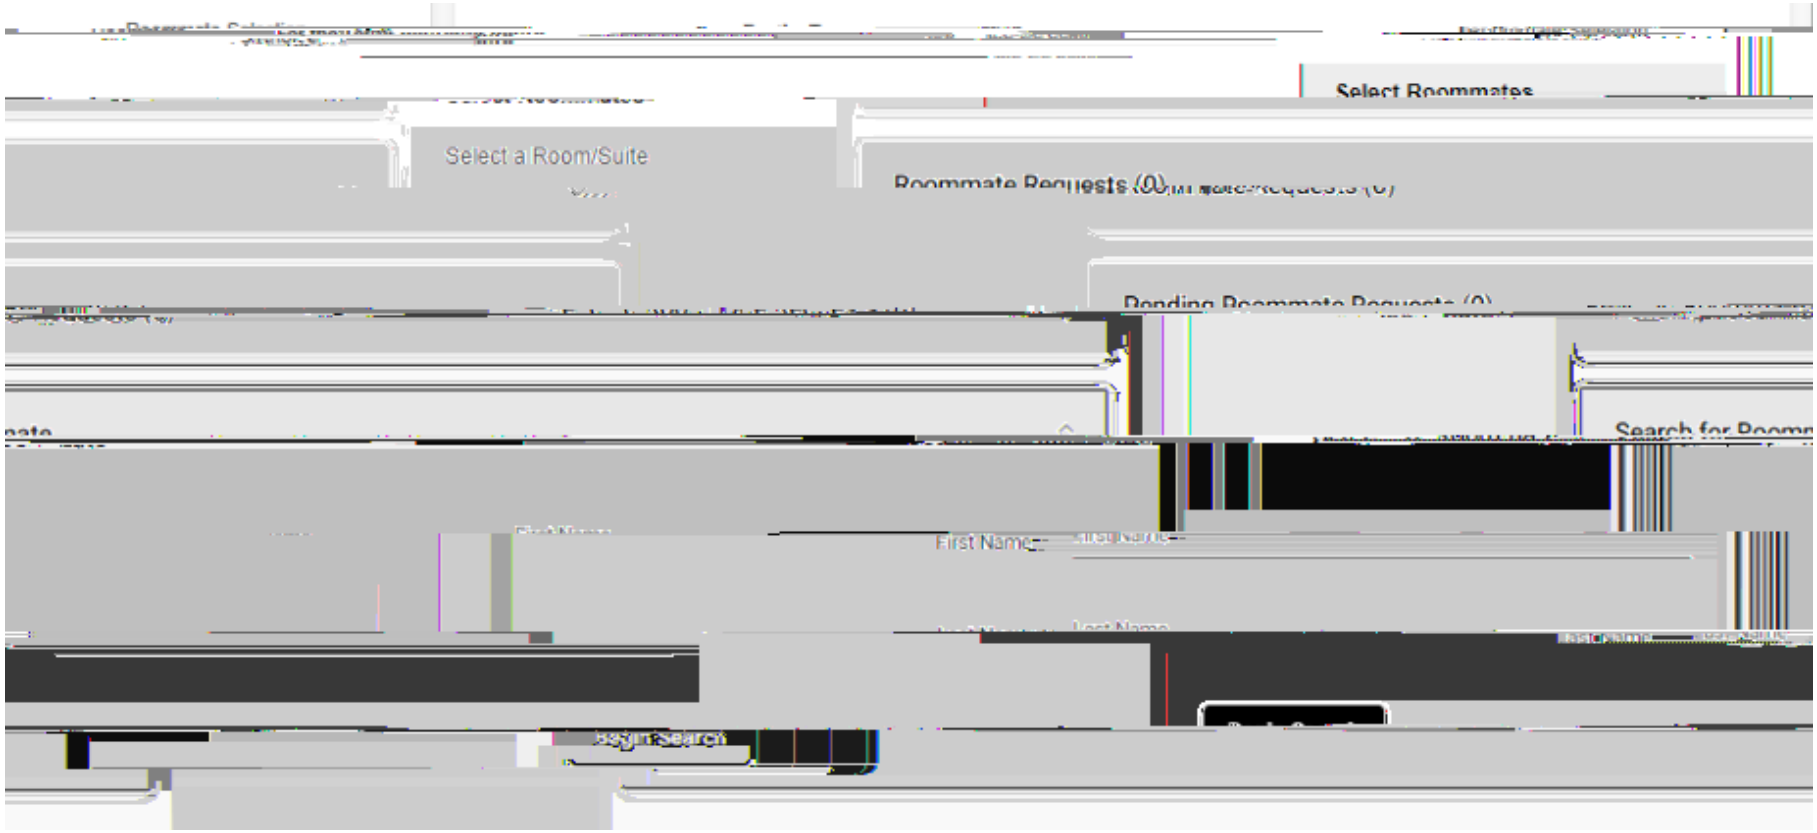
On your MyHousing page, select Roommate Selection on the left side of the screen.



Roommate Selection Instructions

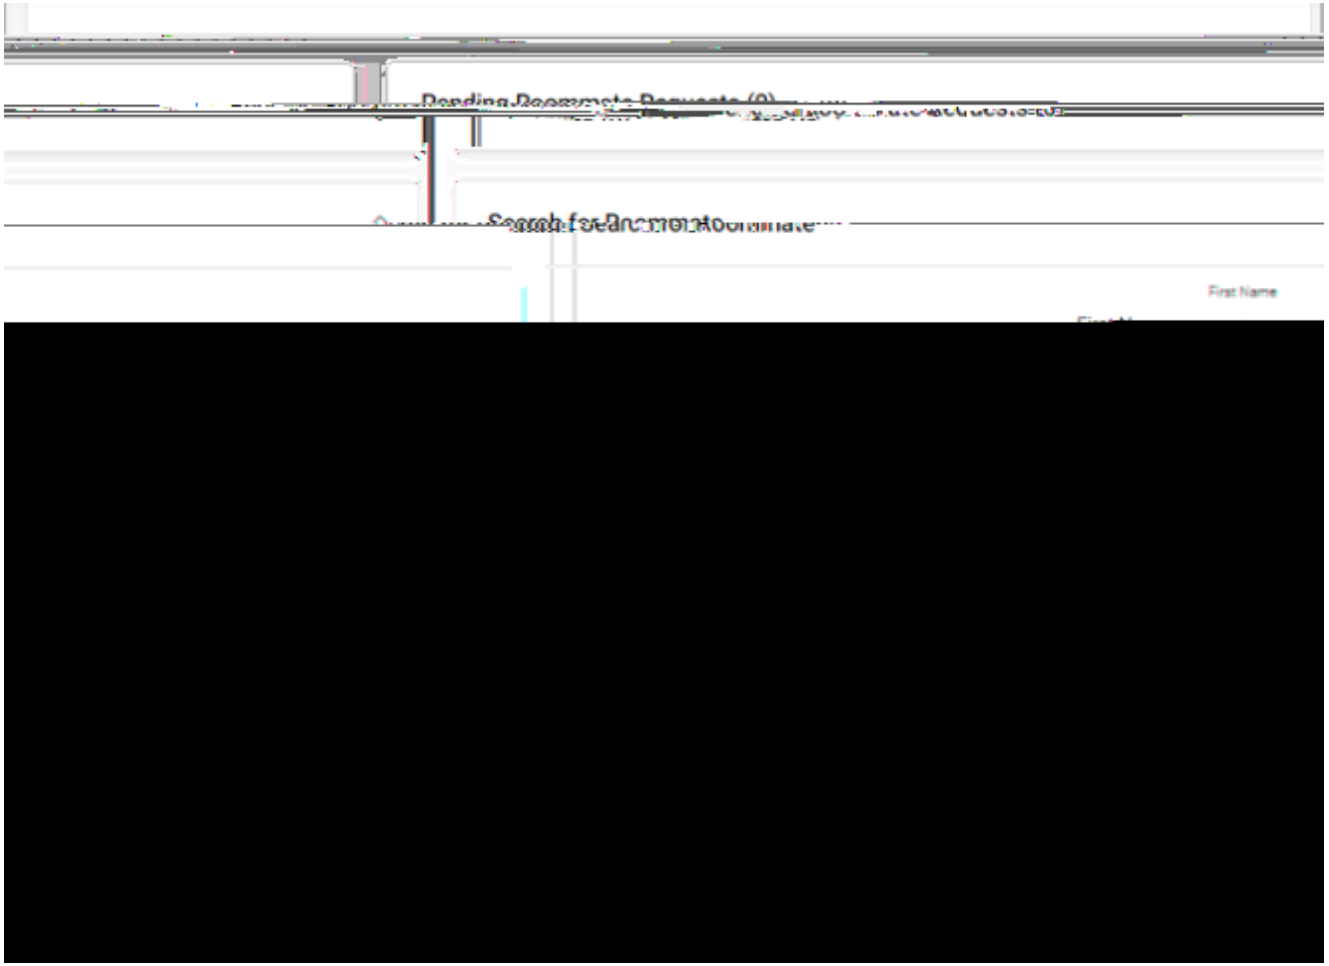
Click on Select Roommates





Roommate Selection Instructions

Once you begin search, any student that is in the system will begin to load based on your search criteria entered. If you find the person you are looking for, under their name, click the request roommate option. The student will then receive a message in their MyHousing account asking if they want to accept the request. Once they hit accept request, then you are matched with the student.



First Name
