

Caitlin Wassermann

I have great respect for all our international students, but especially for our international student-athletes. Caitlin Wassermann is a model STUDENT-ATHLETE. She is a leader with her academics and courses as she is on the field hockey field. Her ability to manage herself, her studies, and the demands of being a member of our field hockey program is a testament to her and the pride she has in being a member of our team. As one of only two Australians here at Millersville, Caitlin's approach to her sport is so professional and her pride in representing her country and our program is what makes her special! I am so proud of her role here with us, it takes a lot to travel 1/2 way around the world to study and play a sport. I love all that makes Caitlin her. Her contributions to our team and Millersville do not go unnoticed. I know she will excel in Millersville with a more worldly outlook thanks to her time here!

Why Millersville?
