

# SOCIAL JUSTICE MINOR

The Social Justice minor is designed to provide non-social work majors the opportunity to develop knowledge and understanding about social justice within a person-in-environment context.

## DEGREE MINOR

### SOCIAL JUSTICE

Social justice is the core for all social work practice. The primary goals for the minor in Social Justice are to enhance sensitivity to vulnerable and at-risk populations, provide opportunity for critical review of social policies and the allocation of societal resources, and stimulate interest in advocacy and planned social change. This minor is intended to provide students with the knowledge and skills necessary to advocate from a social, economic and environmental justice framework.

After successful completion of the requirements in the Social Justice Minor, students will be able to:

1. Identify and apply core ethical values and principles utilized when advocating for social justice and human rights
2. Understand how individuals, institutions and society perpetuate social, economic and environmental injustice and learn how to respond to promote positive social change
3. Identify ways to advocate to promote positive social change
